**Green Environmental Club**

# **Green Environmental Club Activities for the Academic Year 2025 - 2026**

## WORLD OZONE DAY 2025

On Eve of World Ozone Day 2025, Green Environmental Club and Department of Civil Engineering jointly organized One day Industrial Visit to Marudhur Water Treatment Plant and Tunnel Construction Site, Pillur Phase III for Third year Civil Engineering Students on 17-09-2025. From this Visit, Students have learned about various water purification processes involved in transforming Raw water into Drinking water with Zero Wastage of Water. Students also learned how the water is distributed through pumping and transmitted to city limit by visiting the tunnel construction site of Pillur Phase III.

## **WEALTH OUT OF WASTE - COMPETITION**

On behalf of Green Environmental Club successfully organized the “Wealth Out of Waste” competition for students on 19th December 2025. The event aimed to promote environmental awareness and encourage students to adopt sustainable practices by creatively reusing waste materials.

Students from various classes actively participated in the competition, showcasing their innovative ideas and artistic skills. They transformed discarded items such as plastic bottles, newspapers, cardboard, and other recyclable materials into useful and decorative products. The competition not only highlighted the importance of recycling but also inspired students to think creatively about waste management.

The judging criteria were based on creativity, usefulness, presentation, and the effective use of waste materials. The judges appreciated the efforts of all participants and were impressed by the originality and environmental message conveyed through their creations.

The event was a great success and served as a meaningful step toward spreading awareness about environmental conservation.

## **WORLD WILDLIFE DAY**

On the eve of World Wildlife Day 2026, the Association of Civil Engineering Department in association with the Green Environmental Club organized an Association Meeting and an Awareness Seminar on the topic “Environmental Pollution and Mitigation Measures for Wildlife Protection.”

The Chief Guest of the programme was Mrs. V. P. Mohana Jeyavalli, M.Tech., Assistant Environmental Engineer, Tamil Nadu Pollution Control Board, Coimbatore.

The event commenced with a warm welcome address delivered by Mr. S. Dharshan, III Year Civil Engineering student. The welcome speech set the tone for the seminar by emphasizing the importance of environmental responsibility and wildlife protection.

Following the welcome address, the Chief Guest delivered an insightful and informative speech on the seminar topic. She elaborated on the causes and impacts of environmental pollution, its severe consequences on wildlife, and the necessary mitigation measures to ensure sustainable environmental protection. She also motivated students to adopt eco-friendly practices and actively participate in conservation efforts.

The programme then proceeded with the felicitation of the winners of the “Wealth Out of Waste” Competition held on 19-12-2026 under the banner of the Green Environmental Club. The winners were appreciated for their innovative ideas in promoting sustainability.

As a symbolic gesture to promote environmental awareness, cloth bags were distributed to the participants by the Chief Guest as an alternative to plastic bags, reinforcing the message of reducing plastic pollution.

The event concluded with a Vote of Thanks delivered by Mr. L. P. Sanjay, Student of III Year Civil Engineering Department, who expressed gratitude to the Chief Guest, Management, Principal, faculty members and students for making the programme a grand success.
